SKILLS

HTML5, CSS, Sass, Bootstrap, JavaScript, React, React Native, AOS (Animate on Scroll), Node.js Git, GitHub, npm

PROJECTS

Personal Developer Website | December 2022 - February 2023
- Created a personal portfolio website from scratch using HTML, CSS, and JavaScript.
- Implemented AOS animations to enhance the user experience on scroll.
- Utilized Bootstrap to ensure responsiveness on smaller screens.

NuCamp Android App | September 2023 - December 2023
- Developed and tested an app using React Native to facilitate communication between campers and the staff.
- Utilized SASS for UI structuring, styling, and improved load time by 11% with optimized code.
- Implemented swipe-based animations to enhance navigation and improved application performance by 16%.

ArtLab | June 2022 - September 2022
- Collaborated on designing the UI and sketching out webpages for ArtLab.
- Utilized JavaScript, HTML, and CSS to modify and design webpages, reducing code review and bug fixing time by approximately 40%
- Created about 40 custom illustrations for step-by-step instructions on the website.

Sticky Type | March 2023 - April 2023
- Developed the core functionality of the typing website using HTML, CSS, and JavaScript
- Created a user-friendly interface that provides an engaging typing experience
- Implemented a typing test feature to assess users' speed and accuracy, allowing them to track their progress over time.
- Conducted extensive testing to identify and fix any bugs or performance issues

EDUCATION

NuCamp | Dallas, Texas | 2023 Front-End and Mobile Development Certification
